

## AN INTERACTIVE GUIDE TO ESG ISSUES FOR THE INSURANCE INDUSTRY

Environmental, social and governance (ESG) issues are a critical focus for all businesses in 2022, covering an almost overwhelming spectrum of topics. There is however a considerable overlap between them. Our experts have identified 20 key topics which will be of interest to the insurance industry. Our view on where these fall within ESG is illustrated in our interactive venn diagram, which helpfully highlights where to focus attention.

**Click on any of the topics to access our key predictions on that subject.**
